Bioengineered Statement

Dear Customer,

Thank you for taking the time to contact Eagle Family Foods Group.

Eagle Foods is committed to providing customers with dairy product choices to fit their tastes, dietary preferences and requirements, and budgets, as well as with important information to help make those choices. U.S. Secretary of Agriculture Sonny Perdue announced the National Bioengineered Food Disclosure Standard on December 20, 2018. The National Bioengineered Food Disclosure Law, passed by Congress in July of 2016, directed USDA to establish this national mandatory standard for disclosing foods that are or may be bioengineered. Our liquid sucrose may potentially be derived from sugarbeets, which is listed by USDA as a bioengineered ingredient. All products for Sweetened Condensed Milk are to be labelled in accordance with the regulatory requirements.

We trust that this information meets your needs; however, should you need additional information, please feel free to contact a member of our Quality Team at 915-229-4081. Thank you again for your inquiry and your continued support of our company and products.

Sincerely,

Eagle Family Foods Group, LLC.

Jessica Grisak

QA Manager
